Johnson says that twitted him of his poverty. We did not such thing. Johnson accused us of having betrayed the confidence of Salina's business men. We simply replied that judging by the patronage he received here he never had their confidence. Johnson is so cruel as to intimate that he might assert that he "fed him for a year or two." When it is apparent that Johnson cannot even make a living for himself, it looks very absurd to boast of any such "feat" as he lays claim to. By the way, the honor of having fed Sampson a year or two is claimed by as many persons as there were cities which laid pretensions to being the birth-place of Homer.

A "Pound and Parcel Sociable" will be held in the Opera House next Tuesday evening, March 23, for the benefit of the "House of the Friendless," at Leavenworth. The Ladies' Committee extend a cordial invitation to the citizens of Salina and vicinity. Come and bring your pound of groceries or parcel of cast off clothing—any article that will be useful to the friendless and orphans. If you do not feel able to give anything come anyhow. Encourage us with your presence and we will give you a good social time. The entertainment committee will furnish delightful music, beautiful tableaux, charades, etc., free of charge. No admittance fee, but a cordial welcome to all. Come and see. By order of President, Mrs. M. D. SAMSON, Mrs. H. F. WOOLEY, Sec'y.

The Republican Central Committee of Salina county met at the City Hall last Saturday afternoon. Messrs Taylor, Miller, Wagstaff, Combs, Burke, Robert Anderson, Van Eaton, W. A. Maxwell, Terry and Sniggs were present. Mr. D. R. Wagstaff was elected chairman. This was the best choice that could have been made. This year much work and responsibility will fall upon the chairman of the committee. Mr. Wagstaff has had a large experience as a committee man and is especially fitted for the work. Dr. Van Eaton was elected Secretary. He will make a good one. The committee agreed upon a call for a county convention which will elect delegates to the State convention to meet March 31st. The basis of representation was fixed at one delegate for every twenty votes, and one for every fraction over ten. The call is published in another column.

A correspondent sends a Kansas letter to the Boston Transcript, in which the following is told. Our readers will be at once recognize the Salina merchant as Ober: "In truth, a person who waits for change in the shape of two, three or four cents is looked upon with something like scorn in the West. Is your bill seventy-eight cents? You pay eighty, or the obliging shopkeeper says, 'Well, seven cents more.'"

I recall an incident which one of the merchants of Salina related when speaking of his recent trip to New York. He said: "After making up my preparations for returning he went to settle his bill, which proved to be \$80.65. He paid it, and was turning away when he was recalled by a tap on his shoulder, and the three cents were pointed out."

In several amazement he threw down ten cents, and again started away. "Here is your change, sir," said a voice. He is no wise overwhelmed by his count.

The merchant waved his hand and bowed. "Keep it, sir. I am a western man. We don't grasp three or four cents there so closely."

The last paragraph should read: "To hell with your change. I'm no three cent man if you are!"

Sash, Door and Blind Factory. An institution has lately been started in Salina which must become one of first importance to our city. Messrs. Shultz & Wilmarth have recently shipped in the best and most complete machinery for manufacturing doors, sashes and blinds, and already have it in operation. They employ some six men. Their business is steadily increasing, and the prospects are that they will still have to provide themselves with additional facilities for carrying on their business. In connection with their business as contractors and builders this machinery will be of great advantage to them. All such institutions contribute to the advancement of Salina.
